

GSO Senate Resolution 15.05

A Resolution giving Instructions to the GSO Delegation to the NAGPS National Conference

Whereas, our delegation to the NAGPS National Conference represents the GSO as a student government organization and therefore should receive instructions on critical matters; and

Whereas, the National Conference is the site of votes on changes to the NAGPS Constitution and Bylaws and elections for the NAGPS Board of Directors, all of which heavily influence the direction and effectiveness of the NAGPS as an organization, which the GSO has heavily invested in across the last three years; and

Whereas, NAGPS Board members who are student government presidents have typically underperformed due to an understandable lack of time to commit; and

Whereas, a Bylaws change mandating a rotation in the location of the National Conference does not allow for the flexibility necessary in the event that volunteer organizations cannot be found from the relevant regions; therefore, be it

Resolved, that the GSO delegation to the NAGPS National Conference is urged to vote for well-qualified candidates for NAGPS Directorships who are not and will not be a president or other top officer of their local graduate student government organization while they are a member of the NAGPS Board of Directors, using the delegation's best discretion to determine if such candidates are well-qualified; and

Resolved, that the GSO delegation to the NAGPS National Conference shall vote against any changes to the NAGPS Constitution or Bylaws which would force a rotation in the host region for any NAGPS conference.
